Some Tips on Vlog Making:

- Spice up your vlog with unique transitions.
- If you're using music in your vlog background, a good tip would be to sync your transitions with note changes or base drops in your music track.
- Never use copyrighted material.
- You should always interact with your audience.
- Reduce shaky footage.
- Practice filming and watch your videos back - take notice of your footage stability.

- The key to success in the field of vlogging is "Follow Your Passion". Be expressive, do what you love and let the world know about it.
- When creating a vlog, you need to be natural. Vlogging is about sharing your daily routine and activities you enjoy doing.
